INNO VENTURE

Discover. Learn. Innovate.

India's 1st National Level Ideation & Entrepreneurship
Challenge for Children (9 - 14 yrs)

PURPOSE

World educators and experts believe that there is a global achievement gap-that apart from academic knowledge, 21st century skills such as Creativity and Innovation, Thinking, Problem Solving, Communication skills, Social and Emotional learning along with essential practical life skills should be nurtured in children from a young age.

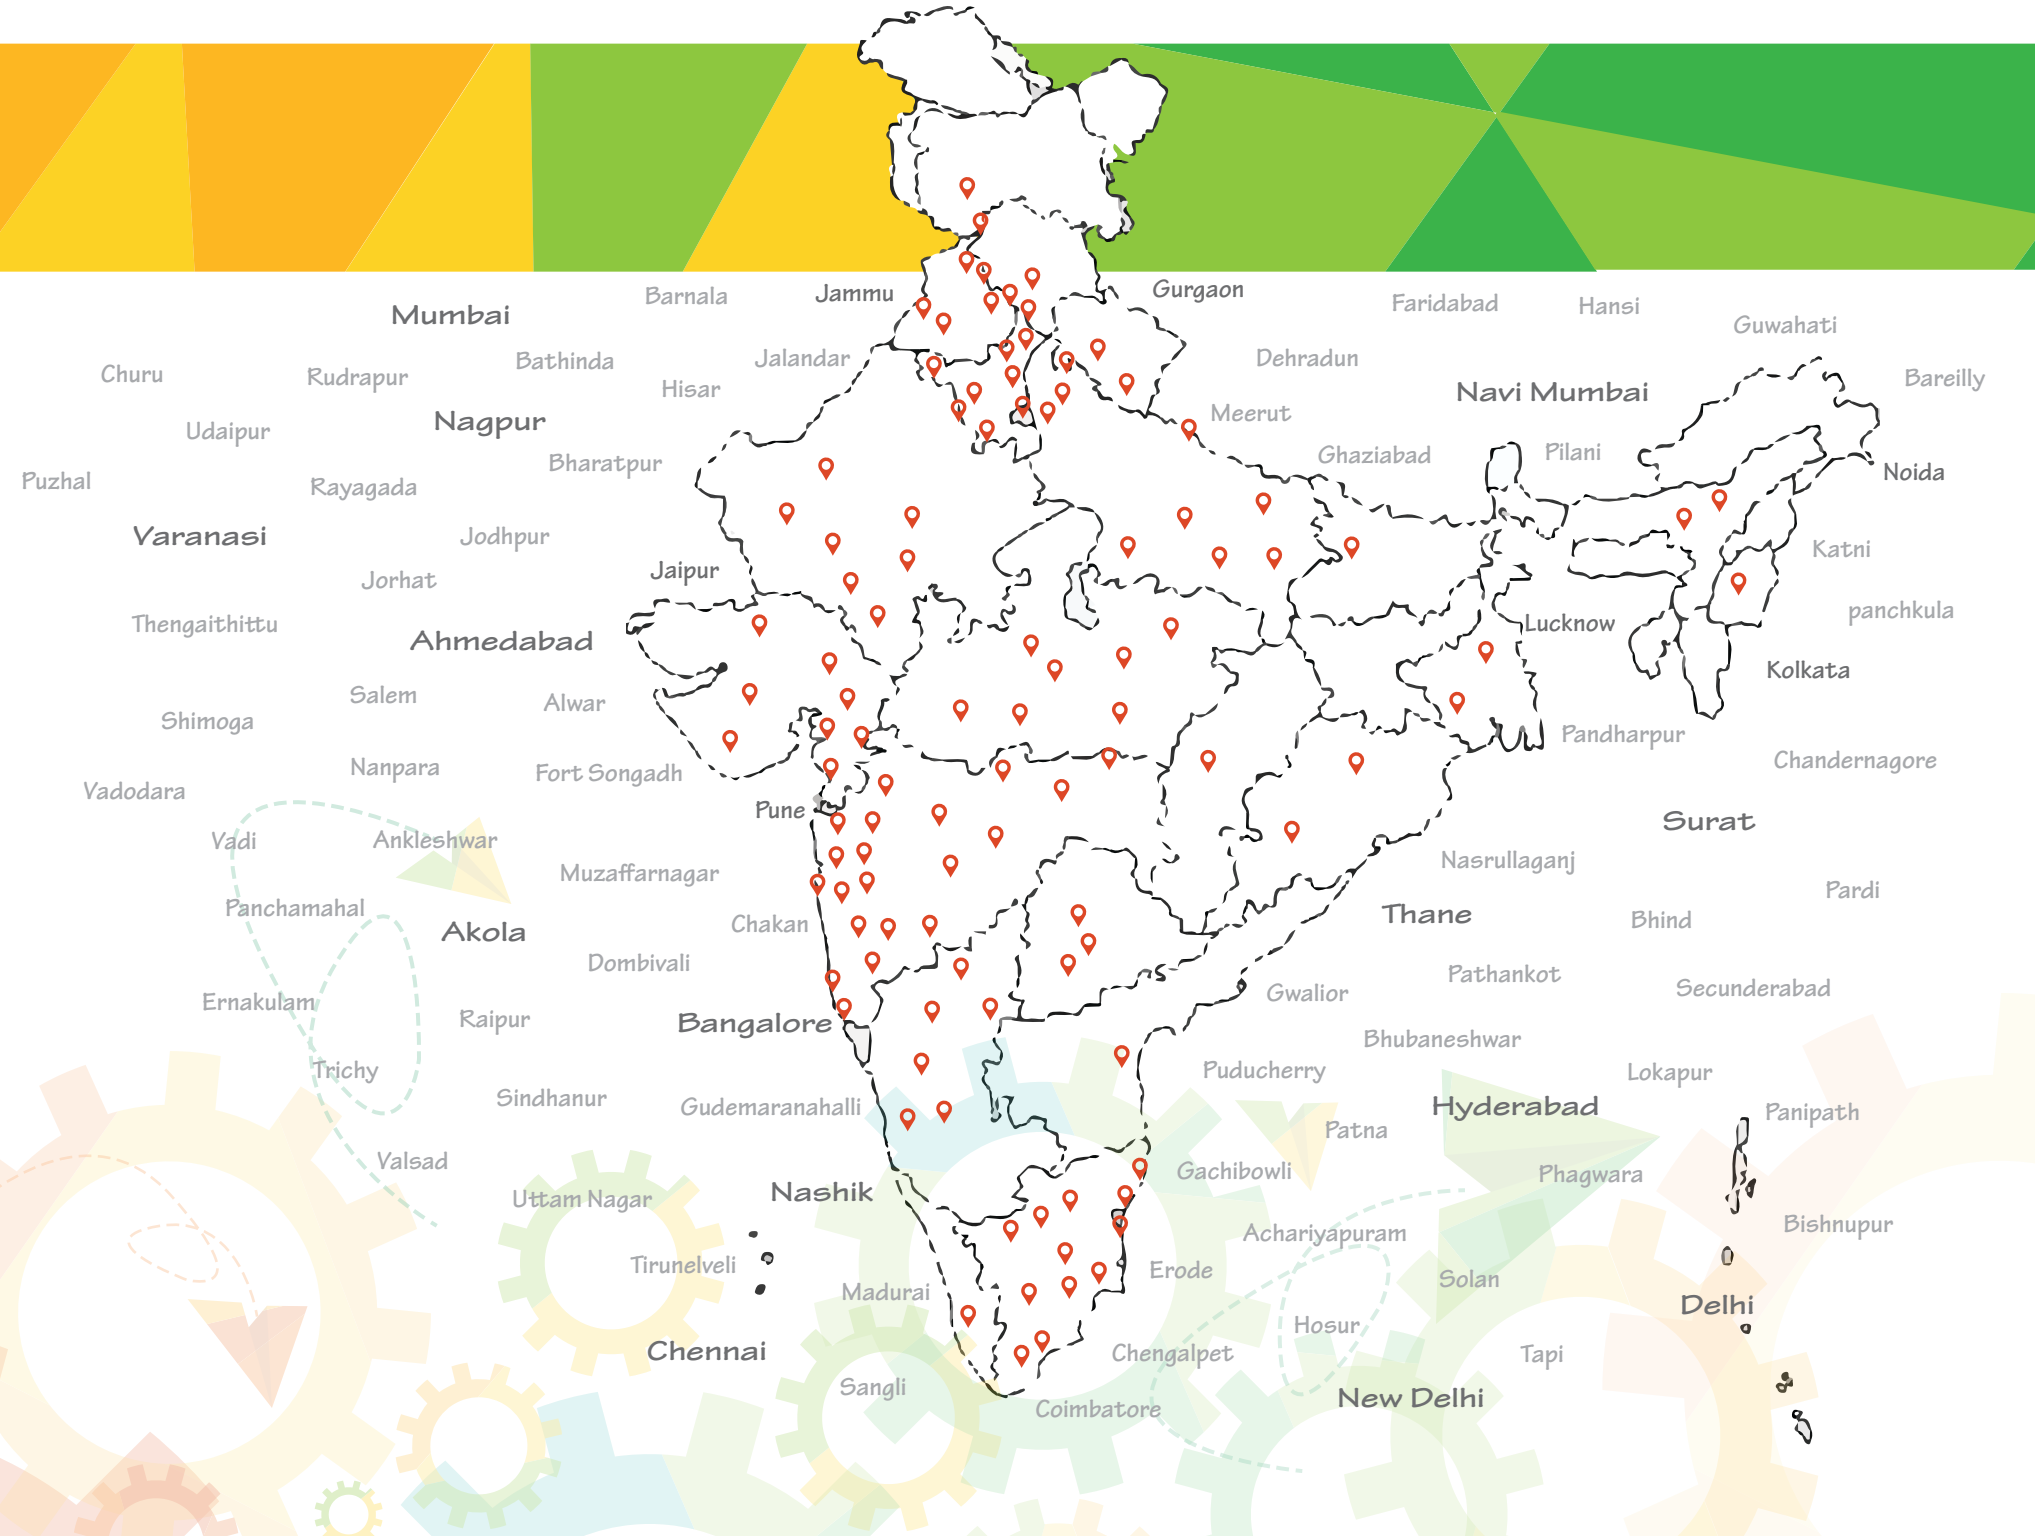

Further, via entrepreneurship education-children can meaningfully apply their knowledge and skills to real life situations and can create something of value to the society and lead the way! Therefore we at IntelligencePlus believe in providing a platform for children to discover and exhibit their ideas.

Why Should Schools Participate in the Challenge?

1. 1st ever platform for children to develop and demonstrate their ideation and entrepreneurial skills.
2. 1st of its kind insightful performance mapping report for schools based on creativity, innovation and critical thinking skills.
3. Opportunity for children to be trained by CEO's, entrepreneurs and mentors.
4. Introduction to many tools and best practises for real life success.
5. Awards, cash prize and a widespread recognition for the schools and their students.
6. The Innoventure challenge is aligned to the SKILL INDIA and STARTUP INDIA mission.

EXPERT'S SHARE

Mr. Anil Goel

(Chairman, Chamber of India Industries (CII), Pune)

“With this initiative, IntelligencePlus is making children to think creatively and the platform provided is remarkable.”

Padma Shri Dr S. B. Mujumdar

(President, Symbiosis International University)

“While school prepare children on academic course work, it is equally important that children be equipped with 21st century skills. InnoVenture helps children develop creativity & think innovatively & discover things outside the school.”

Dr. Abhay Jere

(Associate Vice President and Head, Persistent Labs)

“Students getting exposure to design thinking and business models is something very phenomenal. I really hope this event actually becomes pan India.”

Mr. Parag Shah

(Founder Director at FLAME University and Oxford Golf Resort)

“Innoventure brings together the best minds in the country who truly inspire children to be the change-makers of tomorrow and ignite the flame in budding entrepreneurs across the nation.”

PARENTS, TEACHERS & STUDENTS SHARE

“It’s a great opportunity to be a part of the entire journey of nurturing the child’s future and I would like to congratulate the entire team of InnoVenture for this effort.”

-Parent of Ayesha Vyas, Ryan Global School, Mumbai.

“Being here on InnoVenture has given me a platform to portray not only myself but the external environment has taught me how to cope with changes; be with people that have high caliber. It’s been such an insightful journey. It has been such an amazing experience overall.”

-Darsh Pant, Student, Inventure Academy, Bengaluru

“The InnoVenture platform is very Innovative and Creative.kids are getting a lot more to learn than we thought of. This is an entirely a different trend of education and we look forward to participate in the coming years.”

-Parent of Samhita Kannan, Vibgyor High Bannerghaa, Bengaluru

“InnoVenture provides a platform for the young children to promote innovation, creativity and entrepreneurial skills. The kind of the modules they have introduced to the school children, are one of its kind. This will result in creating the innovators of the future which are the need of the hour for the nation.”

-Mr. Pavan Vashishtha, Principal, Birla Shishu Vihar, Pilani

SOME GREAT IDEAS

Emerging from InnoVenture

The idea of an 'Intelligent Dustbin' which is a solution to the problem of public littering. This dustbin works on an incentive-based principle. People are rewarded with tokens / vouchers of nearby stores / eateries for dropping segregated trash into the public bins. This fundamental changes basic behavioural patterns and ensures the cleanliness of Swachh Bharat Abhiyan.

Kandim Parekh - The Sanskaar Valley

Horn monitoring system to reduce indiscriminate usage of horns causing vehicular noise. This idea implements a small device in all the existing vehicles that allows only certain free horns usages per month and thereafter every vehicle has to pay a minimal amount for horn usage, thereby discouraging people from using horns unless necessary. This device also helps give useful data to the government on the possible infrastructure issues causing traffic jams or vehicular noise and also adds revenue to the government taxes.

Aazrin S - Pushpalata British International School

Aerated nozzle is simply a profound idea to reduce water wastage in households and public places. This product can be attached to every tap which ensures that water comes out in an aerated format through the nozzle and spreads over larger area thereby reducing the amount of water used per unit of time.

Rishab - Sahyadri Edu Dreamer R & D
